Summary

Creative junior web developer with a strong front-end focus and a background in interactive media design. Experienced with React, JavaScript, HTML5, CSS3, and REST APIs, with deployed projects including e-commerce, weather, and food-ordering apps. Known for user-centred design, responsive layouts, and collaborative teamwork developed through both technical training and leadership in fast-paced environments.

Technical Skills

- **Front-End:** HTML5, CSS3, JavaScript, React, Redux, Bootstrap 5, WordPress, basic Flutter
- **Back-End & Databases:** Node.js, Express.js, REST APIs, MongoDB, Python (beginner)
- **Design & Multimedia:** UX/UI Design, Graphic & Brand Design, Motion Graphics & Animation, 3D Modelling & Animation, Videography, Adobe Creative Suite, Figma
- **Tools & Workflow:** Git, GitHub, VS Code, Chrome DevTools, Microsoft Office
- **Soft Skills:** Problem Solving, Communication, Teamwork & Collaboration, Critical Thinking, Creativity, Research, Adaptability, Organization, Time Management, Leadership, Work Ethic

Projects

Food Lover App | React, Redux, JavaScript, CSS

- Built a responsive food ordering interface using React with a component-based architecture, including separate components for categories, dishes, and cart functionality.
- Managed global state with Redux to handle selected items, quantities, category filters, and total cost in a centralized store.
- Styled the app with CSS to create a clean, user-friendly layout that works across different screen sizes.
- Structured components and state management to keep the codebase modular and maintainable, improving readability and making future feature additions easier.
- Live: <https://food-lover-app.netlify.app/> | Code: <https://github.com/AnnMalko/food-app>

Jewelry Shop | React, JavaScript, CSS

- Designed and developed a modern e-commerce interface with reusable React components and a fully responsive layout.
- Built a product listing view with a clear visual hierarchy (image, name, price) and a user-friendly browsing experience.
- Applied modern CSS to ensure a consistent experience across different screen sizes and devices.
- Live: <https://jewelry-online.netlify.app/> | Code: <https://github.com/AnnMalko/jewelry-shop>

Weather App | JavaScript, HTML, CSS, OpenWeather API, GSAP

- Developed an interactive weather lookup tool using JavaScript, HTML, and CSS that consumes the OpenWeather API to display real-time weather data based on user input.
- Integrated a geolocation API to automatically detect and display weather for the user's current city on page load.

- Implemented smooth animations using GSAP to enhance the user experience with fade-in and slide-in effects.
- Live: <https://is-it-rainy-today.netlify.app/> | Code: <https://github.com/AnnMalko/Weather-App>

Experience

Web Development Projects - Academic & Personal - Toronto, ON | 2021 – Present (Academic projects from Can She Code & Seneca & personal portfolio work)

- Designed and built responsive web applications using React, JavaScript, HTML5, and CSS3.
- Developed both frontend features (layouts, components, styling, validation) and simple backend/API integrations as part of full-stack coursework.
- Collaborated on GitHub-hosted projects by creating and reviewing pull requests, managing issues, and maintaining a clear commit history.
- Applied UX/UI principles from interactive media to create user-centred interfaces with a focus on clarity, accessibility, and visual consistency.
- Debugged issues using Chrome DevTools and improved performance by optimizing images and simplifying DOM structure; tested features across browsers and devices to ensure reliability.

Other Experience

Restaurant Manager - Hospitality Industry - Toronto, ON | 2015 – Present

- Led daily operations, scheduling, and budgeting for a 10+ person team in a fast-paced environment, strengthening leadership and accountability.
- Created social media content and streamlined communications to increase customer engagement and improve coordination.
- Balanced full-time management duties with intensive web development training, demonstrating strong time management and persistence.

Education & Certifications

- **Full-Stack Web Development (React & Node.js) Certificate** - *Can She Code Inc., Montreal* - 2025
- **Front-End Web Development Certificate** - *Can She Code Inc., Montreal* – 2022
- **Python Bootcamp** - *Udemy (Remote)* - In Progress 2025
- **Flutter Development Course** - *Udemy (Remote)* - In Progress 2025
- **Interaction Media Design Diploma** - *Seneca College, Toronto - Honours, GPA 3.9/4.0* - 2022
- **Business Administration Advanced Diploma** - *George Brown College, Toronto* – 2015

To Whom It May Concern,

As a junior web developer with a strong focus on front-end technologies and a background in interactive media design, I am passionate about crafting engaging, user-centred web experiences. My expertise spans React, JavaScript, HTML5, CSS3, and REST APIs, and I thrive on bringing creative visions to life through clean, functional code. This portfolio showcases a selection of my work, including:

- Food Lover App: A responsive Single Page Application built with React and Redux, demonstrating component-based architecture, global state management, and a user-friendly food ordering interface.
- Jewelry Shop: A modern e-commerce interface developed with reusable React components and a fully responsive design, highlighting my ability to create intuitive browsing experiences.
- Weather App: An interactive JavaScript application integrating the OpenWeather API, geolocation, and GSAP animations to deliver real-time weather data with a smooth user experience.

Through these projects, I've gained hands-on experience with the full development lifecycle, from initial design concepts to deployment. I am proficient in using Git and GitHub for version control and collaboration, and I consistently apply Chrome DevTools for debugging, performance optimization, and ensuring cross-browser/device compatibility. My approach emphasizes modular code, maintainability, and a strong commitment to delivering high-quality, reliable applications.

My journey into web development was preceded by several years as a Restaurant Manager, where I honed valuable transferable skills such as leadership, effective communication, problem-solving, and time management. These experiences have instilled in me a resilient work ethic and a collaborative mindset, which I bring to every development challenge.

I am eager to connect with innovative teams and individuals who are building impactful web solutions. Whether you're looking for a dedicated team member or exploring potential collaborations, I invite you to explore my projects further and see how my skills and passion can contribute to your next endeavour.

Thank you for visiting my portfolio. I look forward to the chance to collaborate with a forward-thinking team on impactful projects.

Sincerely,

Anna Malko
