## Summary

I'm a creative and detail-oriented digital professional transitioning into a junior web developer role. Skilled in HTML5, CSS3, JavaScript, and React, I bring a strong foundation in front-end development and UX/UI design from my background in interactive media. My ongoing full-stack development training continues to strengthen my technical abilities. I bring creativity, problem-solving skills, and a collaborative mindset to building engaging, responsive, and user-centred web experiences.

## Technical Skills

**Front-End Development:**
HTML5, CSS3, JavaScript, React, Bootstrap5, WordPress, learning Flutter
**Back-End & Ongoing Learning:**
Node.js, Express.js, REST APIs, MonoDB, REST APIs, learning Phython
**Design & Multimedia:**
UX/UI Design, Graphic & Brand Design, Motion Graphics & Animation, 3D Modelling & Animation (Autodesk 3D Max, Unity), Videography, Adobe Creative Suite, Figma
**Tools & Workflow:**
GitHub, VS Code, Microsoft Office, Agile & Scrum Practices
**Soft Skills:**
Problem Solving, Communication, Teamwork & Collaboration, Critical Thinking, Creativity, Research, Adaptability, Organization, Time Management, Leadership, Strong Work Ethic

## Projects

**Food Lover App**
React, Redux, JavaScript, CSS - Built a responsive recipe app with Redux state and API integration.
Live: https://food-lover-app.netlify.app/ |Code: https://github.com/AnnMalko/food-app

**Jewelry Shop** | React, JavaScript, CSS - Designed a modern e-commerce interface with reusable components and a responsive layout.
Live: https://jewelry-online.netlify.app/ |Code: https://github.com/AnnMalko/jewelry-shop

**Weather App** | JavaScript, HTML, CSS, OpenWeather API - Developed an interactive weather look-up tool featuring API fetch, validation, and localStorage.

## Experience

*Web Development Projects (Academic & Personal)* — Toronto, ON | 2021 – Present

- Designed and built responsive apps using React, HTML5, CSS3, and JavaScript.
- Collaborated on GitHub projects applying Agile-style workflows.

## Other Experience

*Restaurant Manager* — *Hospitality Industry* — Toronto, ON | 2015 – Present

- Managed operations, staffing, and budgets; led a team of 10+ employees.
- Created social media content and streamlined business communications.
- Continued role while completing full-stack web development training (2021–present)

## Education & Certifications

**Full-Stack Web Development (React & Node.js) Certificate** - *Can She Code Inc., Montreal* - 2025
**Front-End Web Development Certificate** - *Can She Code Inc., Montreal* - 2022
**Interaction Media Design Diploma** - *Seneca College, Toronto - Honours, GPA 3.9/4.0* - 2022
**Python Bootcamp** - *Udemy (Online)* - In Progress 2025
**Flutter Development Course** - *Udemy (Online)* - In Progress 2025
**Business Administration Advanced Diploma** - *George Brown College, Toronto* - 2015

Dear Hiring Manager,

I'm excited to apply for the Junior Web Developer position. After years in restaurant management, I've successfully transitioned into tech by completing a Full-Stack Web Development certificate (React & Node.js) through Can She Code Inc. and earning a Diploma in Interactive Media Design from Seneca College (Honours, GPA 3.9/4.0). I'm now ready to bring my technical skills and real-world experience to a development team.

My portfolio at https://annmalko.github.io/annamalko.github.io/ showcases projects including a Food Lover App (React + Redux with API integration), a Jewelry Shop e-commerce interface, and a Weather App using the OpenWeather API. These projects demonstrate my abilities in React component design, state management, responsive design, and deployment on platforms like Netlify and GitHub Pages. I'm also expanding my skills by learning Flutter and Python to deepen my programming knowledge.

My restaurant management background taught me how to lead teams, solve problems under pressure, and communicate effectively—skills that translate directly to collaborative development work. Whether working independently or as part of a team, I bring strong attention to detail, time management, and a commitment to delivering quality results.

I'd welcome the opportunity to discuss how my technical abilities, creativity, and problem-solving mindset can contribute to your team. Thank you for considering my application. Please feel free to contact me at (437) 981-5005 or annmalko88@gmail.com.

Sincerely,

Anna Malko
